CoRrUg CoRrOo,

CoRrUg CoRrOo dark gate,
Somewhen uneven ning where?
Maribyrnong, couch someone diamond
Rabid raven talon butt ends
Minah key scratch and squeezed muckward.
The rabbit muckward always available,
Always October September retreat to
The Retreat and its pumping pulse.
Ensconced boom bizz 'n' sax sleeze
Wagoo worm taxi-run ragged patient billing.
Bulbous particular permanent perm and nascent,
Everything wattle blaze down by the docks
Nation turns right flapping threadbare.
Back council, Marvel tat and scallop pie,
Decimal CoRrOo gated shine oscillation,
Bathroom skank spank 'n' worries pall mall,
Liciousness explaining emerging muck.
Adsorbed smoke prue grapples in philosophised house hole tongue forked:-
Warped ordered nobody ephinising toward filo-damp;
Slow scraped binnage point essential late;
Grammatic tunnel carrot slug cramp;
Wrapped shrink bubble-whip panties snapped.
Warmth returned, particularly nonsensical.
Warmth returned, nonsensical.
Warmth returned.

I

UNTHROATABLE

My organ stands up.
The porridge scoffs.
It seems the order just gets taller and taller.

So I relocate.
I trace the wall.

No weekends.
No experience.

II

UNPENETRABLE

After out walking
A Slip-Up: and a
Full Fly goes down.

Bellyside goes bellicose,
and a menthol memory plentiful and preferable
returns for a second then is
spat inaccurately
down bruised belt buckle

Home.

MY GUN

Another trophy to atrophy.

On the ceiling, there it is:
Our Motivator.

ALT

A limp thing

An offering to a converted mass

Big strong calves

Topped with frail, smiling shins

A tucked stomach and whistling cheery lungs I jerk on the thought

and then the gristle is water

and then after this

Pre-trashed party supply

is just another dream

INTERVIEW WITH LUCAS GRANPA ABELA

What did you think of that performance?

It was fun. It didn't go the way I intended it to go. They never do. It's a bit more abrasive, I was working at a high volume. It's not this set that I put together at home or thought I was going to do. Every room and system sounds different so you have to play the room, follow the sound. Do what you have to do.

Can you recommend a book to read?

Naked in Garden Hills by Harry Crews.

Can you recommend a record?

Alter Ego by Amanda Lear.

What do you think about America bombing Iran?

Horrible. Completely disgusting. Trump should be locked up. Strung up, even.

Do you reckon he'll ever stop?

Um, he needs to *be* stopped? I'm disappointed that the world around him pretends that he's normal and just deals with him because he's America. The whole world can isolate America quite easily but they all feel financially inclined to this bullshit.

They play along like it's normal. Putting the whole international rules-based order in peril. And if he can really do this kind of shit, it means Russia and China can do it, and any large powers can squash small countries, and sovereignty is shit. Say what you want about Iran, they educated their people far better than America does, they look after their health far more than America does. There are repressive aspects of the regime, but there are very repressive aspects of the American regime as well. It's hypocrisy in action to think that they can go in and change thegovernment when their government is no fucking saint either. The world should go to America and do a regime change there!

That's all the questions.

All right. The first question is what did you think of that before? It didn't go the way I intended it. I'm gonna cry. They never do this. Yeah, it's good. Like he's uh a bit more abrasive. Like the I was working in a high volume performing, you know. Yeah, he was actually enjoying next video and she's got this.

Something they said that I put together at home or so. I thought I was out. Okay. Right. Right. Every room and system sounds too good. See this at the get to play the room. Yeah it's probably the sound and totally do. Do what you need to do? Yeah yeah I thought it worked.

It certainly worked. Um okay. Can you recommend a book to read? Yeah. Really pretty on the spot. Um, I don't know favourite Pokemon is that. Making God news by Harry Cruz. Okay. Yeah, um, Can you recommend a record?

Yeah, you can also say, no, don't forget to say. No because Evangelius. Yeah, and it's Ulta ego. Okay. There's a bit of a curveball. What do you think about America bombing Iran? Yeah, adorable horrible. Yeah. Completely disgusting. Um Joe yeah. Yeah. Will you ever stop? I reckon you'll ever stop.

You're fine. I mean, yeah. Um, it needs to be stopped. I feel like I'm disappointed. To the world around him protects. It's normal and deals with him just because he's America. Yeah, the whole world can isolate America quite easily and put a stop to it. But they all feel financially enjoying to this bullshit.

Yeah. And this play along like it's normal and um, yeah, spreading the whole International rules by Daughter, and Carol and Sugar and Beacon Jojo, this kind of shit. That means John and Russia can do it, any large Powershell. Yeah, and Soviet D shit. They say what you want about.

Iranate they educated that people far more than America. They look after their health far more than America does. Yeah, there. They can go then and change their government with their government. It's no fucking Yeah, there. Oh yeah. That's all the questions
